

# Bizz Wizz Software

ABN 58745976212

## Version 17 is Now Available

### *Just a few of the best new features in V17*

- **New Job Schedule Manager for Job Cards in Invoicing.**
- **Improvements to Payroll pay rates & New Super report.**
- **Network Memo Mail for In-Office messaging.**
- **Memo Mail is not Company Restricted. (Works across companies)**
- **Load your Default Email program from Email Window.**
- **Print Barcodes from Orders for new Stock Items.**
- **New Slim Tool Bar with Company Selection drop down on Tool Bar.**
- **Add Use By Dates or messages on Barcodes Stickers .**
- **Slow Loading is now done in the background for better Speed.**

With the release of Version 17, we have improved the Payroll module with more pay rates for late night trading. Although this module is an optional add on it is fully integrated with the creditors module. We have a 30 day trial of the payroll built into Version 17 so you can try before you buy. Version 17 is faster on the screen refresh thanks to the new background loading.

Invoicing has a new Job Card Schedule Manager. Bizz Wizz still embraces the latest dot-net technologies and many new features like the enhanced Memo Mail staff Messaging over a local network no matter which of the 5 companies you are working in.

These are not the only changes, there have been lots of small changes made to make the software better, so try it out today free for 30 days.

We can also do on site Training and computer support at \$66 per hr for support members and \$88 per hr for non support members (We do ALL SUPPORT not just BizzWizz)

So if you are paying more than this please think again. if you need help to do the upgrade on your system just let us know. (We even do hardware and Networking)

**NOTE : Version 17 is automatically sent to support plan members.**

**Down Load  
A Free Trial**

## Job Schedule Module

The Job Schedule Manger is incorporated in the Invoicing Program and has been designed to keep track of Job Cards and or Quotes. Jobs can be tagged as [Pending], [Waiting on Parts], [...] or [Ready] to be done.

Jobs can be classed as to the type of job and are colour coded in the list as to their status. You can even select the service person/ tradesman to do the job and if need be, the job can be sent to their mobile laptop when it syncs.

## Memo Mail

Get rid of all those little bits of paper in the office with memo-mail in Bizz Wizz. You do not have to be on the web as memo-mail is only on the internal office network. Each computer on the network is given a user and the memo-mail is sent to that user. The Tool Bar or the Main Menu must be running to get your mail this is why the tool bar has been made more slim line. When a message is received it can be forwarded or even emailed.

## Mobile Invoicing on a Windows Laptop or Tablet

Mobile Invoicing is used to do Invoicing or Quoting on the road away from the office, This can be done even if the office computer is being used while your away.

Mobile Invoicing is designed to be used on a laptop, mini notebook or Tablet running Windows. The program has been adjusted to work on the small screen resolutions of the cheaper mini notebooks. We have included most of the features in the full invoicing program including the new job schedule. Just sync back to the main program when you are back in the office and both systems will be updated.

**Check Out Mobile Invoicing on our web site**
