

Bizz Wizz

Version 16 Now Available

With the release of our Version 16 we have released our first Payroll module. Although this module is an optional add on it is fully integrated with the creditors module. We have a 30 day trial of the payroll built into Version 16 so you can try before you buy. Version 16 is faster on the screen refresh and it has a new base colour look. It still embraces the latest dot-net technologies and many new features like the enhanced Document Manager and Window Contacts and staff emailing addresses selectable from the emailing form.

**NEW
Optional Payroll**

Just a few of the best new features in V16

- ABA files for bulk payments directly to the bank electronically.
- Bookkeeping transactions can now hold Supplier and Client account numbers.
- More refined searching fields in the Ledger.
- Bookkeeping transactions can now be assigned to statements for easier reconciliations.
- Enhanced Document Manager- ideal for creating side forms for Clients, Suppliers and Invoicing.
- Double click email attachment previews.
- Windows contacts and staff emailing addresses selectable from email form. (great for internal emailing)
- Label printers can now be pre selected so you don't have to keep changing printers.
- Stock builds on the fly from within Invoicing.
- More control options when editing the Invoice body.

The payroll module is fully integrated with the creditors module. Once the employees details have been entered, including Allowances, Deductions and Super, pictures and documents can be assigned to the individual employee. Changes to the employee record and changes to adjustments (Deductions & Allowances) can be made at any time.

The payroll module holds and accrues RDO's, Long Service Leave, Sick Days and Holidays. It will produce end of year reports for Group Certificates and a yearly Summary Statement report for all employees.

The pay run is completed when it is sent through to Creditors allowing for payments to be made to the Ledger thus allowing flexibility of payments to Super and Taxation. Wage transactions are shown on W1 and W2 on the BAS.

POINT OF SALE

Bizz Wizz has a full Point of Sale add on module for fast service till operation.

Point of Sale has 160 hot keys on screen, and is touch screen compatible. Prints to docket and A4 printers. Part number replacement so the same item can have two numbers. Sale of cartons can reduce can stocks.

80 line items per docket with auto collate to reduce lines used. POS can access multiple files with 25,000 parts per file.

The Search capability for items is so powerful you can find anything in seconds. Using the refine search button you can Search within a search.

Bizz Wizz can also supply docket printers, cash drawers, touch screens and bar code scanners to complete the package.
