

## Version 24 News Letter

Bizz Wizz Version 24 Full copy and Trial is now available. Download and use today! ([www.BizzWizz.com.au](http://www.BizzWizz.com.au))

*This letter only shows Changes from ver23 to ver24! If your version is older than 23 read all the old news letters from your version to the new v24 on our News web page.*

**Here are some of the new changes in V24,** (*There are many more undocumented small changes also.*)

### **Ledger**

When multiple Transaction are sent or imputed to the ledger for " One amount banked " the trick is knowing which transactions make up the amount banked ! The " Bulk deposit field " is used to do this and when you pay a group of invoices the total is put into bulk deposit field so you can match the transactions to reconcile to bank. In v24 you can now select a group of transactions and place in the " Bulk/dep field " an amount or reference detail to help with reconciling.

When Un-Reconciling, the Statement date can now be removed automatically if required.

### **Invoicing**

Did you forget to do the end of month Statements?

No fuss in v24 you can now do back dated Statements or just reprint!

If you tagged show memo it will now show when you are just editing an Invoice as well so you don't forget that important memo.

Do you need to send your Quotes out as a " Pro Forma Invoice " ? Well now you can in v24.

### **Stock**

The Quantity in stock of a selected or group of selected Parts can now be changed in one hit from the parts listing screen.

You can now Print and View Sales for a Supplier and or print a list of All Suppliers total sales this is great for consignment stock or commissions.

### **Point of Sale**

Emailing of Invoices and dockets and now be done for sales new and old.

### **Wages**

I am now working on the ATO's Single Touch Payroll integration which I hope to have done by June this year.

PTO
